

Idea Description

5 “Kindness Meters” will be placed throughout the downtown area near major intersections. Kindness Meters are refurbished parking meters that allow people to donate their spare change to local charities. The funds would go to local organizations working in the areas of poverty and homelessness.

Cost Breakdown

Signage	\$250
Installation	\$1,250
Total	\$1,500

Community Impact

Kindness Meters are a way for people to use their spare change to make real change. The initiative has been designed in a way to ensure that once installed there will be little or no ongoing costs associated with them and therefore 100% of the money collected is donated directly to the amazing local community groups dedicated to providing services and resources to individuals experiencing poverty and/or homelessness. Feed a meter, feed a soul.

Other Information

The meters have been acquired and painted. The Salvation Army has agreed to collect the funds. The funds will be distributed to local organizations working in the areas of poverty and homelessness.
